1. Introduction

Geo-Locked Class is a location-based classroom management application designed for teachers and students.

This guide explains how to install, navigate, and use all features of the app.

2. Getting Started

Login to the application

- 1) Open the Geo-Locked Class app.

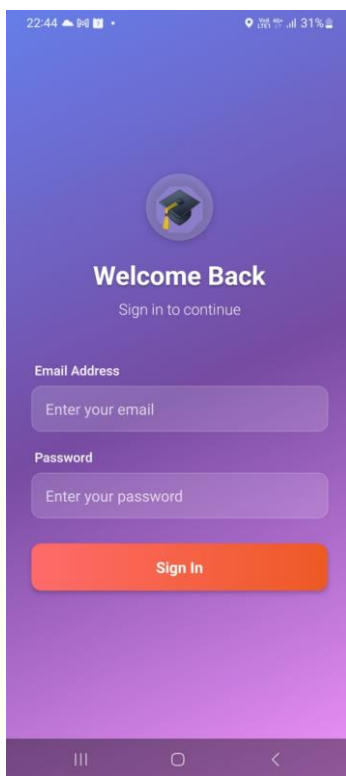

Figure 2.1

- 2) Enter the login credentials provided by your administrator.
- 3) When prompted:
 - Allow Location Permission (required).
 - Allow Notifications (recommended).
- 4) You will be redirected to your dashboard based on your role (Teacher or Student).

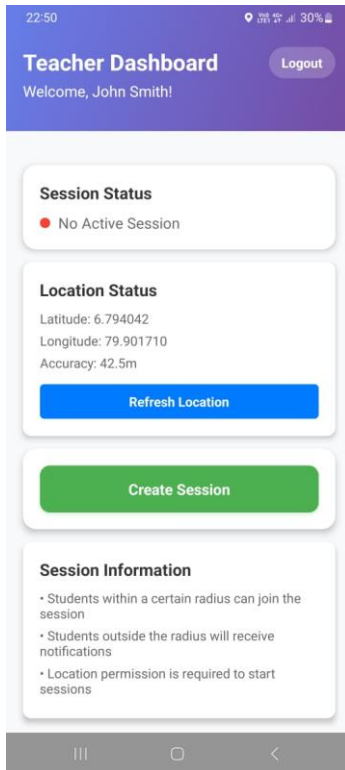

Figure 2.2

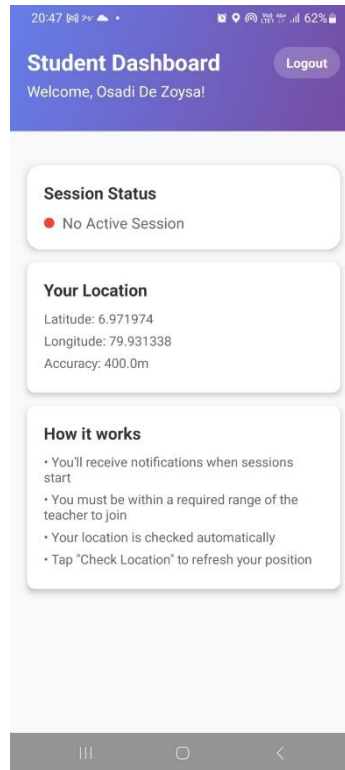

Figure 2.3

- ✓ Location services must remain enabled.
- ✓ Internet is required for live sessions.
- ✓ Submissions made offline will sync when a connection is restored.

3. Teacher Guide

Once you successfully login to teachers account you will be direct to teacher's dashboard shown in figure 2.2.

3.1 Create a session

Step 1: Tap “Create Session” from the dashboard.

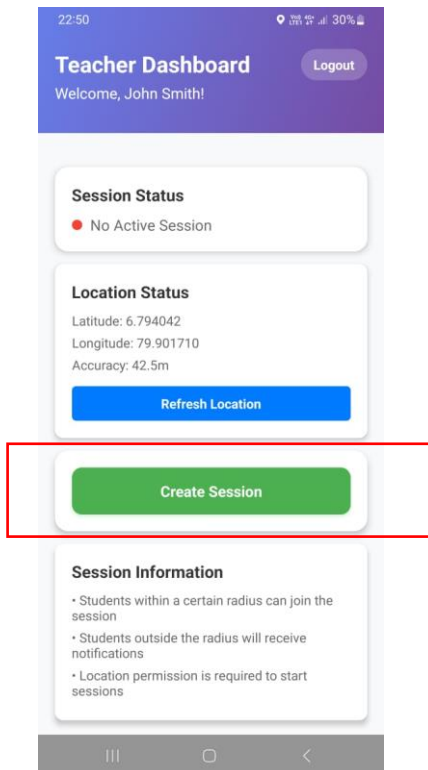

Figure 3.1.1

Step 2: Select Session Type (Attendance, Vote, Quiz)

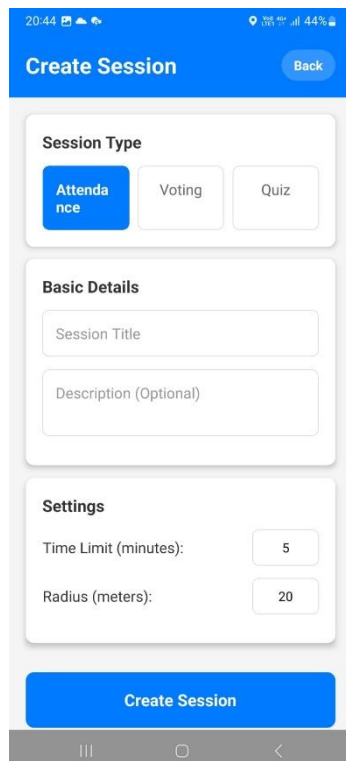

Figure 3.1.2

Step 3: Provide Basic Details for the session.

Step 4: Session-Specific Setup

Attendance Session - No extra configuration.

Voting Session

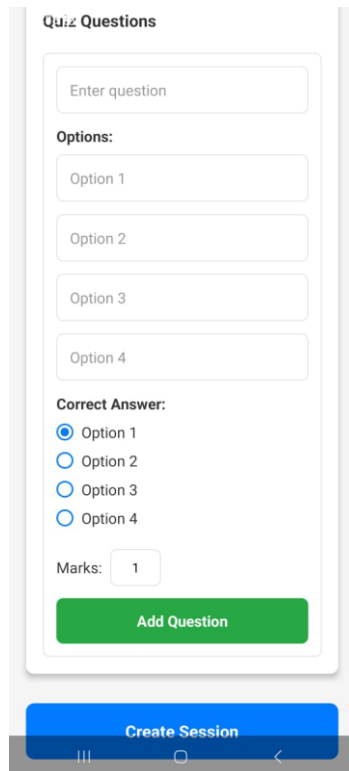

- Enter question
- Add 2+ options
- Enable/disable: Multiple choice

The screenshot shows a mobile application interface for creating a session. At the top, the status bar displays the time 20:46, signal strength, and 44% battery. The app header is blue with the text 'Create Session' and a 'Back' button. Below the header, there are three sections: 'Session Type' with buttons for 'Attendance', 'Voting' (selected), and 'Quiz'; 'Basic Details' with input fields for 'Session Title' and 'Description (Optional)'; and 'Settings' with input fields for 'Time Limit (minutes)' (set to 5) and 'Radius (meters)' (set to 20). The 'Voting Details' section is highlighted with a red rectangle and contains an input field for 'Enter voting question', two input fields for 'Option 1' and 'Option 2', a '+ Add Option' button, and a toggle switch for 'Allow Multiple Choice' which is currently turned off. At the bottom of the screen, there is a blue button labeled 'Create Session'.

Figure 3.1.3

Quiz Session

- Add question text
- Add options
- Select correct answer
- Set marks
- Add multiple questions

The screenshot shows a mobile application interface for creating quiz questions. At the top, there is a title bar labeled "Quiz Questions". Below this, there is a form with several sections: a text input field labeled "Enter question", a section titled "Options:" containing four text input fields labeled "Option 1", "Option 2", "Option 3", and "Option 4", a section titled "Correct Answer:" containing four radio button options labeled "Option 1", "Option 2", "Option 3", and "Option 4" (with "Option 1" selected), and a "Marks:" section with a text input field containing the number "1". At the bottom of the form is a green button labeled "Add Question". Below the form is a blue button labeled "Create Session". The bottom of the screen shows a standard Android navigation bar with three icons: a home button, a back button, and a recent apps button.

Figure 3.1.4

Step 5: Tap “**Create Session**” to launch it.

Students receive automatic notifications.

3.2 Manage Active Sessions

When you create a session you can see session details including

- Active status
- Time remaining
- Location status
- End, Edit session and generate report buttons

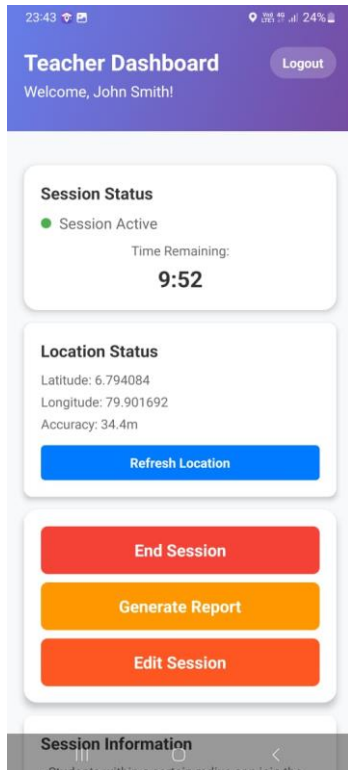

Figure 3.2.1

3.2.1 Edit Session

- Edit time limit
- Edit radius

Changes apply immediately.

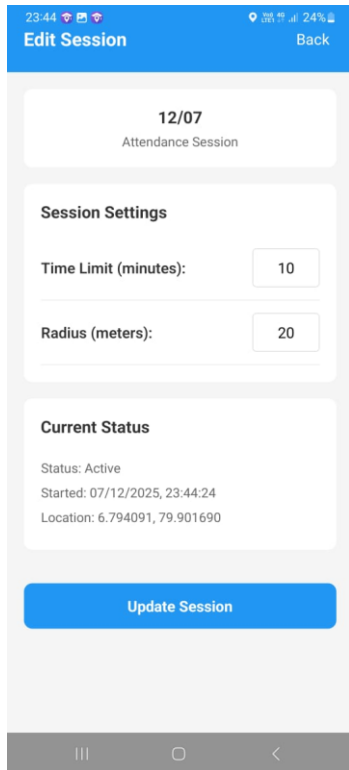

Figure 3.2.2

3.2.2 End Session

Tap “**End Session.**”

Students cannot submit afterward.

3.3 Generate Report

Reports can be generated:

- From the active session
- From the session details screen

Tap on “Generate Report” button.

Select CSV or PDF report to generate.

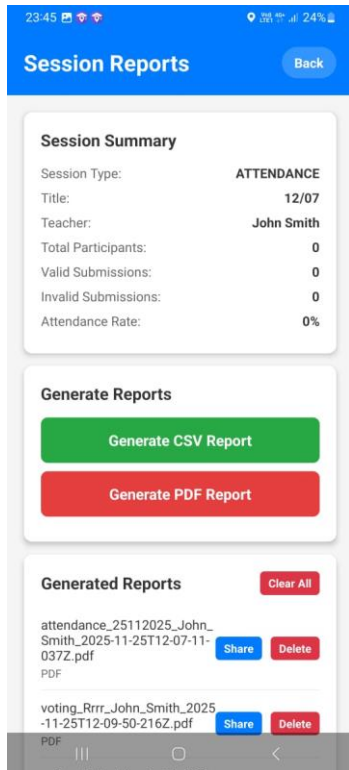

Figure 3.3.1

3.4 User Management (Admin users only)

When you login to your account you will see “Manage Users” button. Tap on it.

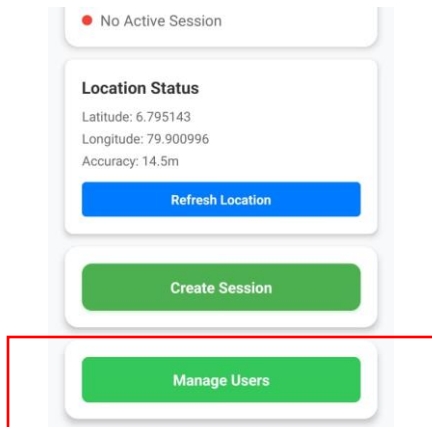

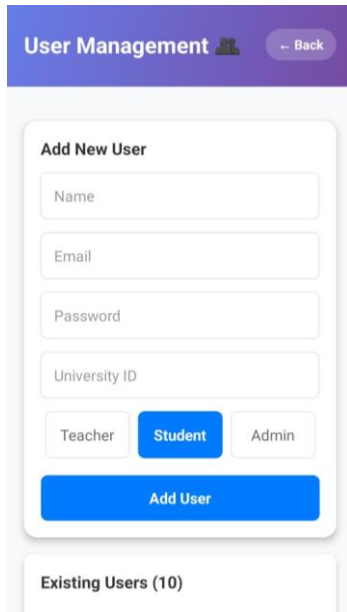

Figure 3.4.1

3.4.1 Add New Users

Step 1: Select user type.

Step 2: Fill required fields

Step 3: Tap on “Add User” button

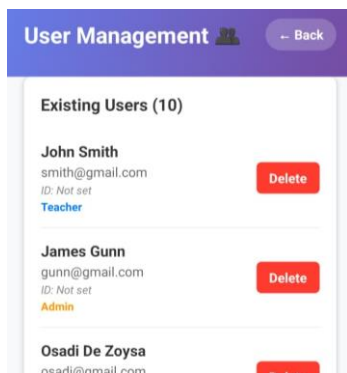

The screenshot shows the 'User Management' app interface. At the top is a purple header with 'User Management' and a 'Back' button. Below the header is a white card titled 'Add New User'. Inside the card are four text input fields: 'Name', 'Email', 'Password', and 'University ID'. Below these fields are three buttons: 'Teacher', 'Student' (which is highlighted in blue), and 'Admin'. At the bottom of the card is a large blue button labeled 'Add User'. Below the card, the text 'Existing Users (10)' is visible, indicating the next section of the app.

Figure 3.4.2

3.4.2 Delete Users

You can see existing users bellow add user section.

Tap on delete button next to the user you want to delete

The screenshot shows the 'Existing Users' list in the 'User Management' app. The header is the same purple bar with 'User Management' and a 'Back' button. Below the header is a white card titled 'Existing Users (10)'. The card displays a list of three users. Each user entry includes their name, email address, a note 'ID: Not set', their role (highlighted in color: blue for Teacher, orange for Admin), and a red 'Delete' button. The users listed are John Smith (Teacher), James Gunn (Admin), and Osadi De Zoysa (Teacher).

Figure 3.4.3

4. Student Guide

Once you successfully login to your account you will be direct to student's dashboard shown in figure 2.3.

4.1 Join a Session

Receive notification when a session starts.

Tap "Join Session".

You will see the enabled "join session" button if following are satisfied:

- ✓ Must be within the required radius
- ✓ Session must be active
- ✓ Must not have already submitted

4.1.1 Attendance Session

Step 1: Join the session

Step 2: Review location info

Step 3: Tap "Mark Attendance"

Step 4: Receive confirmation

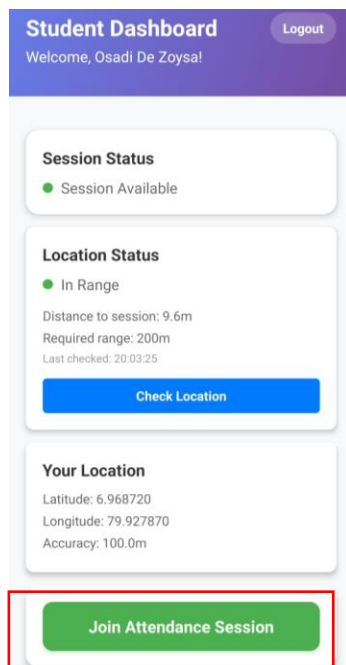

Figure 4.1.1

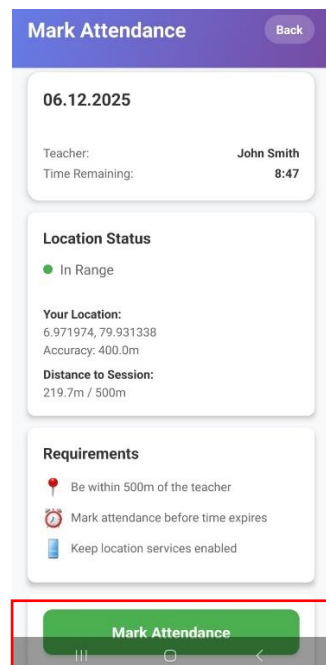

Figure 4.1.2

4.1.2 Join Voting Session

Step 1: Join voting session

Step 2: Select one or multiple options

Step 3: Submit vote

4.1.3 Join Quiz Session

Step 1: Join quiz session

Step 2: Navigate between questions

Step 3: Answer each question

Step 4: Submit quiz

Quiz Integrity

The app monitors:

- App switching
- Screen minimization
- Suspicious activity

Repeated 3 warnings will auto-submit the quiz. And will get 0 marks.

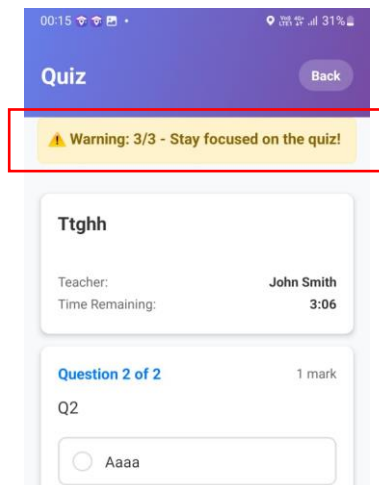

Figure 4.1.3

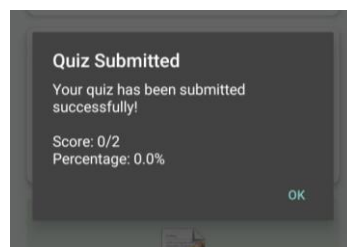

Figure 4.1.4

4.2 Location Management

Range Indicators

- Green: In Range
- Red: Out of Range

Improving Accuracy

- Move outdoors
- Refresh location

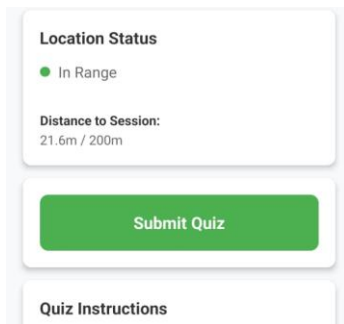

Figure 4.2.1

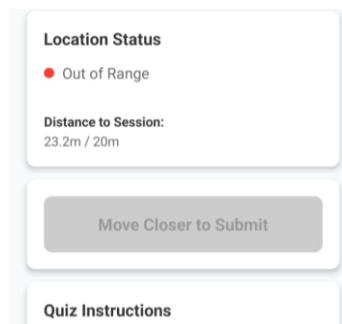

Figure 4.2.2

4.3 Offline mode

If internet disconnects:

- Submission is saved locally
- Syncs automatically when connection returns

Important: When you submit a quiz when you don't have internet connection same will happen. If the time limit exceeds it will ask you to automatically submit it. Do not submit it. Just cancel the pop up message. Your answers will be saved once you back to the connection.

5 Troubleshooting

Problem: Location Not Working

Solution:

1. Check Permissions:

- Go to device Settings → Apps → Geo-Locked Class → Permissions

- Ensure "Location" permission is granted

2. Move to Better Area:

- Go outdoors or near a window
- Avoid buildings with poor GPS signal
- Wait 10-15 seconds for GPS to update

3. Refresh Location:

- Tap "Check Location" or "Refresh Location" button
- Wait for coordinates to update

4. Restart App:

- Close the app completely
- Reopen and check location again

Problem: "Join Session" button is disabled

Possible Causes:

- Not within required radius
- Session time limit exceeded
- Already submitted
- No active session

Solution:

1. Check range status on dashboard
2. Move closer to teacher's location
3. Verify session is still active
4. Check if you've already submitted
5. Contact teacher if issues persist

6 Frequently Asked Questions

Do I need internet?

Yes, but offline submissions auto-sync.

Can sessions be edited after starting?

Yes, you can edit time limit and radius for active sessions. However, you cannot modify quiz questions or voting options after starting.

What happens if I switch apps during quiz?

It triggers warnings and may auto-submit.

How do I delete a user account?

Go to User Management (admin only), find the user, and tap "Delete" button. This action cannot be undone.

Can I use the app without location services?

No, location services are required for all features as the app is location-based.
